

Information Note for Applicants for a herd number for Pigs

Please Note:-

- A Pig herdnumber is an administrative device, issued by the District Veterinary Office (DVO) to a distinct herd/flock, solely for the purposes of disease control.
- A Pig herdnumber issued by the Department to any particular individual acting as the keeper, does not infer ownership of lands or animals under that herdnumber.
- For the various eradication schemes, animal identification regulations and record keeping purposes a “keeper” is a natural person responsible for the care and maintenance of animals.

The conditions:-

Listed below 1-7 are the principle conditions that are assessed by the DVO before a pig herdnumber may issue. In seeking to prevent disease transmission, the individual pig herd must fulfil the following criteria:

- 1) That the pig herd occupies a defined holding (*see “holding” definition below*).
- 2) That there are separate entrances to the holding.
- 3) That entry points onto other adjoining holdings/lands, not part of the application, are permanently blocked.
- 4) That perimeter fencing should be stock-proof at a minimum and also prevent direct contact between stock on contiguous or adjoining holdings.
- 5) That there are independent and separate facilities such as
 - a. Separate handling facilities,
 - b. Separate feeding and watering facilities.
 - c. Separate farm machinery
- 6) That there are adequate facilities for the purpose of inspection, isolation, loading, unloading, marshalling, watering, feeding, treatment of sick/injured animals and housing as appropriate.
- 7) That there are adequate facilities for animal bedding and the collection of manure and wastewater.

To summarise, the conditions are that the pig herd must be maintained separately without intermixing of stock from other pig herds and that the herd is managed as an independent unit.

“The Herdowner” means the nominated company or entity or person(s) associated with a specific herdnumber to whom any payments are made. The "keeper" role is classified as a non-financial role and therefore it is not possible to make payments to “keepers”. It is only possible to make payments to ‘Herdowners’. For example (i) John and Mary Smith jointly own a farm. In this case John and Mary can be recorded jointly as the ‘Herdowner’ and receive payments but they must agree which of them will be the keeper as only a single name can appear in the keeper role. Example (ii) Acme Farms Ltd. owns a farm and Chris Tree is the manager responsible for the day-to-day running of the farm. Acme Farms Ltd is recorded in the ‘Herdowner’ role and Chris Tree is recorded in the ‘keeper’ role
